

# Healthy Options - Children

## Core CAHPS Questions

### Composite

## Family-Centered Care

This chart summarizes the responses to survey questions 40, 41, 42, and 43 contained in the composite, "Family-Centered Care." Individual question-level responses immediately follow.

NOTE: Results presented in this report are based on the 2001 "Survey About Your Child's Health Care" CAHPS survey sponsored by the Washington State Medical Assistance Administration. Small percentage differences represent measurement (sampling) error rather than actual differences in health plan performance. To guard against inappropriate interpretation, scores and star ratings are not displayed for plans with fewer than 85 responses for a single survey item. The bar graphs show the unadjusted proportions for each response category by health plan. The stars represent the results of statistical tests that compared health plans adjusting for respondent's age and education and child's general health status. Due to rounding, some bars may not add up to 100%. Request "Detailed Methodology" for additional information.
